Vare Reads Senator Penrose Out of Party

y that has aroused the people of Phila-

With contractors' ticket apparently caniot got any one to speak for it except the
audidates themselves and Contractor Vare.
I would be well for Mr. Vare to clear himif of every remnant of suspicion of comilleity in the Fifth Ward outrage, ending
n murder, before he can expect any repertable citizen of Philadelphia to get into'
controversy with him."

In reply to that portion of Senator Vare's latement "reading him out of the party," enator Penrose referred to provisions on ago 450 of Smuli's Legislative Handbook. which quotes the election laws providing that any one enrolling in a party at the fall registration is entitled to vote that party ticket at the succeeding fall and spring primary elections, which would en-title Republicans to vote the Town Meeting party ticket this fall and the Republican party ticket this fall and the Republican licket next fall. Senator Penrose also muoted Section 4, on page 449, which re-quires that a voter be challenged before ils vote at the primary could be questioned.
"And the Vares have not been making a gractice of doing this," said Senator

Penrose.

Senator Vare's lengthy statement today was in reply to Senator Penrose's announcement that he would support the Town Meeting Party in its fight against "government-by-murder" and the Vare-Smith wing of the

publican party. Penrose made his announcement this morning. He not only repudiated the "50-50" ticket, but he also declared himself unqualifiedly against the Smith transit plan and in favor of the independent candidates. He denounced contractor rule in Philadelphia as one of "murder," and predicted the

end of contractor rule.

The Women's League for Good Government, organized in 1995 for cleaner politics, indorsed and pledged the aid of its 3000 members to the Town Meeting party this Smator Vare, in his statement in answer

to Senator Penrose, asserted that the Town Meeting party ticket represents the transit company's interests.

The Fifth Ward ejection day murder and thuggery. Vare said, were similar to "the victous system of election thuggery instituted and encouraged by Penrose in his own Eighth and surroundings wards." The Town Meeting party was launched.

and Vare, by defeated Republican candi-dates. Vare concluded by saying that the Republicans who vote for the independent tickets will not be eligible to vote in the Republican gubernatorial primary next VARE'S STATEMENT

Vare's statement follows:

Vare's statement follows:

I concede that Senator Penrose has recently done some work in the Conference Committee and in the Senate Finance Committee when he has not been suffering with his weil-known and frequently recurring 'indisposition,' although both before the primary and since he was in political conferences with Judge Brown and ex-Judge Gordon. It is also well known that during that same period he aftended a political conference in Atlantic City, where he agreed to support the Republican ticket as now nominated. The town meeting was called under false pretense. It was announced as a protest against murder. We all indorsed that purpose, but it was turned into a political meeting and a political committee of twelve was appointed to select candidates to oppose the Republican ticket chosen by nearly 160,000 voters. This committee named the following candidates: Thomas F. Armstrong for Receiver of Taxes. When he was elected president of Common Council a few years ago he had his committee named by the late John M. Mack, a city contractor, assisted by Judge Gordon. This clearly shows how Armstrong deceived the people by a false claim of being an independent.

Walter George Snith was also chosen

walter George Smith was also chosen as the reform candidate for Register of Wills. He is a relative of the Drexels, who have \$12,000,000 invested in the present transit system. They are insisting upon a lease of the city's subway system upon their own terms.

This committee also chose William R. Nicholson for City Treasurer. He is president of the Land Title and Trust Company, a Wideney-Elkins traction corporation. This title company through

Newark

New York

Mr. Nicholson, by selling copies of city's records, has kept from the city many millions of dollars in revenue, and has deprived thousands of small conveyancers of an opportunity to make a living.

It will be remembered that when Sentator Penrose and his friends attempted to steal the gas works in 1905, Sentator Elihu Root described them as "a criminal combination masquerading as Republicans." I want to repeat that there has been no complaint among the Republicans in Philadelphia or elsewhere against a legitimate contractor doing business in his own name and out in the open, taking an active interest in the welfars of the Republican party, but there were many complaints about Senator Penrose receiving 125,000 from the Standard Oil Company which could not be and was not denied by him.

BLAMES PENROSE FOR THUGGERY The unfortunate affair in the Fifth

The unfortunate affair in the Fifth Ward was a natural result of the victous system of election thuggery instituted and encouraged by Penrose in his own Eighth and surrounding wards under his control in which my friends have naver been laterested, it will be remembered that this Fifth Ward trouble was caused by Samuel G. Maloney, a life-long friend of Senator Penrose, who recommended his appointment as Harbor Master a few years ago.

of Senator Penrose, who recommended his appointment as Harbor Master a few years ago.

Penrose's opposition is not new. He was organizing the Anti-Contractors' Party before the primary, which was in violation of his pledge to support the Republican ticket. As a matter of fact this party was actually pre-empted early on the merning after the primary. Judge Gordon, however, advised Portrose to drop this party and to have another one grow out of the Town Meeting, which had been called by another Democratic judge. It is perfectly clear that this opposition comes from those who have been defeated at the last two primary elections who are now using this unfortunate affair to try to fool the people. A fair sample of this is the fact that the Town Meeting Party of the Posty-fourth Ward has placed Doctor Bacon on its ticket for Select Council, while its chairman ts the notorious John Dunn. This prevails in every ward in this city, where the Councilmanic nominees are in every case the defeated Penrose men. None are independent, much less reformers.

PENROSE POLITICAL TRICK.

PENROSE POLITICAL TRICK

PENROSE POLITICAL TRICK.

The same Republican voters who nominated Mr. Rotan for District Attorney voted for Mr. Kendrick and the balance of the Republican ticket, so that they all received the informement of nearly 160,000 votes. There can be no distinction in this respect between Mr. Rotan and any other man on the ticket. No man who voted at the primary has any complaint against the Republican ticket as nominated, and 180,000 Republicans are not going to be fooled by any political trick of Mr. Penrose.

Penrose interfered in the Philadelphia political situation, a purely local affair, in 1911 and defeated a Republican Mayor which was followed by the defeat of the State and national ticket in 1912. Last winter Penrose threatened to ruin Governor Brumbaugh and then promised to pass some reform bills through the Logislature. He did neither, it is of no concern whether Penrose is for the Republican ticket or not. It will be elected by a large majority and those who support the ticket will then be eligible to vote at the spring primary to nominate a Republican Congressmen.

FUSION BY DEMOCRATS

FUSION BY DEMOCRATS The withdrawal of the Democratic nom-inees in favor of the Town Meeting party candidates for three of the four row of-fices made fusion between the two parties against "government-by-murder" almost complete. Only Richard T. McSorley, Demo-cratic condidate for District. cratic candidate for District Attorney, op-posing District Attorney Rotan, declined to withdraw from the race. He has until mid-night to file his formal withdrawal papers to allow Mr. Botan an open race.

night to file his formal withdrawal papers to allow Mr. Rotan an open race.

It is not considered probable that Mr. McSorley will withdraw in view of the final decision of Mr. Rotan not to budge from the Republican ballot to accept the Town Meeting party nomination. The Democratic City Committee decided to place the names of the three Town Meeting party candidates—Walter George Smith (Register of Wills). William R. Nicholson (City Trensurer) and Thomas F. Armstrong (Receiver of Taxes)—on its ballot at a meeting of the executive committee at Tenth and Walnut streets, where the three transfers were arranged, on Republican ballot to accept the Town Meeting party nomination. The Democratic City Committee decided to place the names of the three Town Meeting party candidates—Walter George Smith (Register of Wills), William R. Nicholson (City Trensurer) and Thomas F. Armstrong (Receiver of Taxes)—on its ballot at a meeting of the executive committee at Tenth and Walnut streets, where the three transfers were arranged, on a motion by John O'Donnell, passed unanimously.

Director of Public Safety Wilson smiled

Director of Councilines this maladministration by the election of City Council ments of council ments of cou

and curled up his lips as he whistled this afternoon when he was asked whether he proposed to make any transfer of policemen prior to election day.

"I have no comment to make-but any changes that I may make will be to better the service of the police department," an-swered Director Wilson, as he walked

Penrose's "bolt" was the dramatic climax to the recent series of "bolts" of Penrose and McNichol ward and division leaders from the Vare-controlled city organization In this regard it was announced that the independent organization will be allied with a Republican league about to be formed, representative of every division and ward

Clinton Rogers Woodruff and A. Lincoln Acker, former Sheriff, were suggested for the office of chairman of the new organi-zation, which will parallel the activities of the Republican City Committee. Senator Penrose's statement was as fol-

ows: Indorsement of the Town Meeting party was made at a meeting of the executive committee of the Woman's League for Good Government at 1714 Chestnut street this afternoon. The following resolution was

"The Woman's League for Good Govern-nent, organized in 1905 to aid the City party n its successful fight for decent city gov nment and active in every campaign to otter political conditions in Philadelphia nce that time, hereby declares its sense of shame and dismay that conditions of such cruelty, wickedness and dishonesty as attended the recent primary election in the Fifth Ward should have been possible in

ndemnation of these outrages and pledges s 3000 members, resident in every ward f the city, to work for the advancement of the cause of good government in Philaeiphia and to co-operate with the Town feeting party in their efforts at this time." Meeting party in their efforts at this time."

For five months, as is well known, I have been absorbed, to the exclusion of everything else, in the exacting task involved in the consideration of the revenue bill in the Finance Committee, in the Senate and in the Conference Committee. The momentous character of this revenue bill and the other war measures and their vital importance to the great manufacturing, financial and business interests of Pennsylvania, and to the wage-earners and consuming classes of the Commonwealth, impelled me to lay aside every other consideration and devote my attention exclusively to legislative affairs in Washington.

PLEDGED TO TOWN MEETING

PLEDGED TO TOWN MEETING

PLEDGED TO TOWN MEETING

Therefore, I have been entirely out of touch with the development of local affairs in Philadelphia and it has been out of the question for me to participate in them. This is particularly the case in reference to the local events which have resulted in placing in the field the Town Meeting candidates for county offices and for Councils.

With the inception of the Town Meeting ticket and the selection of its candidates I had no part, directly or indirectly, and I was in Washington at the time. No political influence with which I have any consection had anything to do with the movement or the ticket in the slightest degree. No surgestion of political proffer has been made by me or to me concerning the candidates or their campaign.

Under these circumstances I feel at entire liberty to announce my position in the present juncture and to discuss some of the reasons that appeal to me to take an unequivocal stand in the campaign. I am unreservedly in favor of the election of the Town Meeting candidates. They are cilizens of the very best type in Philadelphia, admirably chosen to fill the requirements of the offices to which they have been nominated.

A business man like Mr. Armstrong for Receiver of Taxes, a lawyer of the high professional standing of Mr. Smith for Register of Wills and a banker of such prominence as Mr. Nicholson for City Trensurer will bring to those offices a higher order of talent and service than Philadelphia has had for some time in its county offices. Mr. Rotan, of course, deserves re-election as District Attorney, and also has my unqualified support.

Advises BOLT FROM G. O. P.

fended Republican principles and policies on the floor of the Senate. I deliberately advise the Republicans of Philadelphia that they are not bound by any ile or obligation to support the county and ward tickets technically styled "Republican" at the approaching election.

The offices involved are local and municipal and in many parts of the State are on a nonpartian basis, and I hope to see the day when the same system will prevail in Philadelphia. Nosnational or State issue of the Republican party is concerned. Moreover, the principle of loyalty in the support of a political proposition can only be claimed when the decision has followed discussion and contest among the electors, free, untrammeled and uneverced. It is self-evident that no one can be expected to support candidates nominated by fraud, force and brutal interference with the elector in exercising his franchise. And in the same way candidates indirectly involved in such a revolutionary situation must suffer with the rest. If precedent is sought, I call attention to the fact that Colonel Roosevelt, ex-President Taft. Governor Whitman and Senator Root are advocating the election of a nonpartisan ticket beaded by a Democrat in the municipal circilon in New York.

My position is not new, I successfully opposed the atternit of the obligation.

election in New York.

My position is not new, I successfully opposed the attempt of the chief street-cleaning contractor in Philadelphia to nominate his brother as Mayor because the proposition seemed to me indefensible from any point of view. I expressed my views fully on contractor government in May, 1916, at a meeting of independent Republicans anxious to help in the election of a Republican President. I am glad now to be able to say that the death knell of contractor rule has been rung. The limit of desperate, victous and criminal political methods has been reached.

CONTRACTOR RULE BY MURDER

CONTRACTOR RULE BY MURDER Government and party control by a contractor in Philadelphia has resolved itself into government by murder. No greater shame could be inflicted upon this city, the cradle of American liberty, than that at this way crists, when the United States is engaged in a world struggle for democracy, the very shadow of Independence Hall should be polluted with murder, foully done in the interest of contractor politics.

should be polluted with murder, foully done in the interest of contractor politics.

The irrefutable evidence shows that this crime was committed under the guidance said protection of officers of the municipality. Thus the sworn guardians of the lives and liberties of the people became instead the protectors of hired nurderers. The Fifth Ward for days was like a Mexican city in the hands of brutal bandits. The police force was deliberately degraded into participation in the lawlessness. The honest and decent members of that force in all parts of the city are unjustly dispraced by the Fifth Ward butnery. The only way to redress the wrong done to the reputable policemen of the city (and they comprise a large majority of the force) is to repudiate and punish the faithless leaders under whose control the deadly deeds were done. Justice is not properly administered when it falls only upon the agents and not the leaders of crime.

And it must not be overlooked that the seconds and rollor interference in the

and not the leaders of crime.

And it must not be overlooked that the assaults and police interference in the Fifth Ward are only an example of similar occurrences in nearly every ward in the city at the time of the recent primary elections. Wherever needed, brutal police methods were employed with the sanction and under the direction of official authorities and the employes of the several departments were driven to the basest methods to coerce control and obstruct the electors.

The purpose of the conspiracy to commit

The purpose of the conspiracy to commit murder had specially in view the securing of a two-thirds vote in Select and Common Councils to furnish a complete control over appropriations. In any event, that strangle-hold will be prevented by the aroused people. The city of Philadelphia, through sinister and corrupt political influence and maladministration, is facing bankruptey. An increased tax rate a becoming inevitable to meet the endlessly increasing demands of garhage collectors and street cleaners who likewise attempt to control the government, and to make good a growing deficit from waste, improvidence and incompetence. Particularly this impotent mismanagement of public affairs and lack of perception and constructive enterprises of the city fund a chaotic condition, which will bring dire-results to the city, to the citizens and to the street railway passengers of Philadelphia.

Prompt action must be taken to curb The purpose of the conspiracy to commi-

Cleveland

Brooklyn

and letters from all, over Pennsylvania urging me to make a/public statement defining my position and condemning and repudiating the shameful situation in Philadelphia, so that the party in the State, approaching next year an important guberna torial election may be raileved of disgraceful stigma. That crime, and the corrupt system of contractor rule which caused it, makes clear the duty of every right-finined citizen. Republicans of State and nation look to the voters of Philadelphia to purge the party in this city of the contractor control which has brought diagrace and shame to the party name.

This can be done by the election of the

Senator Vare said:

"Ferrose and his friend Maloney are quite familiar with the conspiracy that led up to the Fifth Ward murder and of which I know nothing about."

He referred to his own observes of a Penrose-Menichol "frame-up" against Mayor Smith and others accused of murder conspiracy, in the hearing of which case Samuel G. Maloney, head of the Val O'Farrell Detective Agency bureau here, testified that Senator Vare was sponsor for Isaac Deutsch in his alleged request for "strongarm" men to carry the Fifth Ward election. Senator Vare commented as follows on District Attorney Rotan refusing the nomination of the Town Meeting party.

"District Attorney Rotan has full knowledge of all the details in connection with that unfortunate happening in the Fifth Ward and if the Republican ticket had the slightest faint on it he would not select that as the only ticket he would run on." to the party name.

This can be done by the election of the Town Maeting candidates and by the defeat of contractor-controlled candidates for City Councils. For the good name of Fhiladelphia and for the honor of the Republicaphia and that this centest is only the polls. I trust that this centest is only the beginning and that it will be carried out until the next mayorativ election. The police must be as absolutely taken out of politics as the State constabulary, and the city gavernment must be amended and revised, even if it is necessary to call an extra session of the Legislature.

MAYOR RAPS "ROLTERS"

"Mr. Penrose is trying to fool the people mi. Petrose is trying to fool the people just once more," was Mayor Smith's comment on the "bolt" of the senior Senator to the independents. The Mayor made his comment at Atlantic City. He continued: "The city has a difficult financial problem to solve, but that condition is because the city was so robbed, so handled and so nanhandled under Petrose controlled. as the only ticket he would run on.

MAYOR RAPS "BOLTERS"

panhandled under Penrose - controlled ad-ministrations. But the city is not being robbed under the Smith Administration. Just
